# CHAMPIONS *of* CARE

---

Hospitals are champions when it comes to delivering medical care to those who are ill and injured. But there is more to being a champion. Being an advocate for health care in the broadest sense is often overlooked, but no less an essential component of a health care champion.

This publication highlights the “Champions of Care” who work behind the scenes at the Nebraska Hospital Association: the NHA Board of Directors, NHA staff and the members of the many committees that the NHA relies upon to implement the programs and initiatives based on the issues that are important to Nebraska’s hospitals.

## ABOUT THE NHA

The Nebraska Hospital Association (NHA) is a statewide health care trade association representing Nebraska’s hospitals and health systems. The NHA was organized in 1927 as a result of an informal meeting called by Miss Homer Harris, superintendent of Clarkson, to discuss pending legislation which affected hospitals in the state of Nebraska. At that meeting, the NHA founded and appointed its first board of directors. Rev. Emil G. Chinlund of Immanuel was named president; Miss Blanche Fuller of Methodist was named vice president; Miss Ida Isaacson of Evangelical Covenant was named secretary; and Miss Homer Harris was named treasurer.

Since that time, the NHA has been representing and supporting the needs of Nebraska’s rural and urban hospitals and health systems. The NHA supports and encourages its members in developing various health care delivery systems geared toward improving the health and well-being of each community.

The NHA is governed by a 17-member board of directors that works closely with its membership to provide them with state and federal legislative advocacy, health care trend and regulatory information, educational programming, communication, data reports and special services. Members rely on the NHA for information, education, advice and collaborative leadership to advance Nebraska hospitals’ ability to provide exceptional health care.

Hospitals are the stewards of good health. Through our partnerships with representatives in the health care industry, legislators, government and citizens, the NHA is able to assist in the development of strong, healthy communities. The NHA has been the guiding force of its members since 1927. The NHA serves as the influential voice of its members in the health care legislative and public policy arenas, promoting delivery of quality health care and influencing public opinion of hospitals and health networks. Members depend on the NHA for information, advice, education and changes in health care regulations, legislation, trends and other issues.

## **MISSION**

The Nebraska Hospital Association is the influential and unified voice for the Nebraska's hospitals and health systems, providing leadership and resources to enhance the delivery of quality patient care and services to Nebraska communities.

## **VISION**

By 2020, the Nebraska Hospital Association will have established partnerships with leaders and be the influential resource for improving Nebraska's health care infrastructure and policies.

## **VALUES**

The Nebraska Hospital Association is committed to expertly serving members with integrity, transparency, accountability and financial stewardship.

## **STRATEGIC FRAMEWORK**

The mission of the NHA is supported by a strategic framework comprised of four pillars: advocacy and policy, financial stewardship, strategic partnerships, and quality and safety. To expertly serve NHA members, each pillar is founded in the values of integrity, transparency and accountability. Collectively, this structure, built on a value-based foundation and prominently reinforced by the four pillars, support the NHA's mission of being the trusted leader to improve the health, well-being and quality of life of all Nebraskans.

## POLICY DEVELOPMENT COMMITTEE

The NHA's policy development process has the advantage of engaging the expertise and experience of several groups. They are the NHA board of directors, the Policy Development Committee (PDC), Priority Issue Teams (PIT), Policy Team and Advocacy Team. Each group plays an integral part in ensuring that the NHA participates in development and support of efficient and effective policy.

The PDC is an invaluable group of key hospital leaders who work year-round as coordinators, promoters and advocates of legislative health issues. The PDC reviews each PIT recommendation and, after deliberation, formulates recommendations for the NHA board of directors.

Once the legislative session begins, the NHA Policy Team, made up of NHA staff, assesses all introduced legislative bills and identifies those bills of interest relevant to Nebraska's hospitals. These are presented to the PDC, who determine which ones are priorities for the legislative session. The priorities are presented to the board, who similarly reject, adopt or amend and adopt them. The NHA Advocacy Team then represents the members accordingly, throughout the legislative process.

# THE INFLUENTIAL VOICE

---

The NHA wants to connect with our members on a personal level. We offer opportunities for member involvement in the Association, and work to serve as a positive conduit to review issues and to network in a collegial and involved environment.

There is continued interaction between NHA and key hospital management staff in addressing major state and federal legislative, regulatory and reimbursement issues.

Each spring, summer and fall, the NHA holds a meeting in each of the five districts to update the membership on what issues the NHA is engaging in on their behalf. **We are your resource. Contact us at any time.**
