CMS Hospital Conditions of Participation 2015

Webinar #T2986

DATE AND TIME

September 15, 2015

9:00 a.m. - 10:30 a.m. CT

OVERVIEW

Any hospital that accepts Medicare and Medicaid reimbursements must follow the Center for Medicare and Medicaid Services (CMS) hospital interpretive guidelines. These regulations and interpretive guidelines must be followed for all patients in the hospital.

During this session information will be provided on how to better comply with new CMS regulations and guidelines, and how maintain compliance. Nursing staff will learn to better understand the medication and pharmacy standards since many of these standards apply to nursing. These include medication errors, adverse events, drug incompatibilities, self-administered medication, and required medication policies. By staff working together, issues with standards can be reduced or eliminated.

TARGET AUDIENCE

This webinar is for anyone involved in the medication process including pharmacists, physicians, all nurses, patient safety officers, nursing supervisors and managers. Other staff members that should attend this session include CNO, CMO, COO, Joint Commission coordinators, and quality and performance improvement staff, and policy and procedure committee members.

OBJECTIVES

- Explain how hospitals that receive Medicare/Medicaid reimbursement must follow the CMS medication guidelines even if the hospital has deemed status.
- Discuss CMS requirements on standing orders and protocols.
- Identify that all medication must be given with three different medication timing schedules.
- Describe CMS policy requirements for high-risk drugs such as double-checks or dose limits.

FACULTY

Sue Dill Calloway, RN, CPHRM, MSN, JD

Medical-Legal Consultant - Dublin, Ohio

Sue Dill Calloway has been a nurse attorney and consultant for more than 30 years. Currently, she is president of Patient Safety and Healthcare Education and Consulting and previously the Chief Learning Officer for the Emergency Medicine Patient Safety Foundation.
