CMS Hospital CoPs on Patient Rights Standards: Keys to Ensuring Compliance

Webinar #T4081

DATE AND TIME

November 7, 2017

9:00 - 11:00 a.m. CT

OVERVIEW

This program will cover, in detail, the CMS patient rights requirements which includes grievances, right to get notice of patient rights, exercise of rights, visitation, informed consent, privacy, confidentiality of medical records, safety, advance directives, interpreters, abuse and neglect, infant security, plan of care, staffing levels, and over 50 pages of restraint standards.

This program will also discuss important CMS memos which include memos on confidentiality and privacy for hospitals. These are important especially since HIPAA has been revised and the increased penalties being levied against hospitals. Finally, this session will review the crosswalk to the Joint Commission standard. Many hospitals are surprised at the number of regulations and the detail required complying with these problematic standards.

OBJECTIVES

1. Discuss how any hospital that receives reimbursement for Medicare patients, must follow the CMS Conditions of Participation on patient rights.
2. Identify the CMS regulations under grievances which includes the requirement to have a grievance committee.
3. Give examples of CMS requirements for advance directives.
4. Describe the restraint and seclusion requirements including the requirement that all staff must be trained.

TARGET AUDIENCE

Anyone involved in the implementation of the CMS Conditions of Participation (CoPs) on Patient Rights, including: C-Suite officers and board members, all nurses with direct patient care, TJC coordinator, quality improvement coordinator, risk managers, patient safety and compliance officers and ED, clinic and lab managers.

FACULTY

Sue Dill Calloway , President

Patient Safety and Health Care Education and Consulting

Sue Dill Calloway has been a nurse attorney and consultant for more than 30 years. Currently, she is president of Patient Safety and Healthcare Education and Consulting and was previously the chief learning officer for the Emergency Medicine Patient Safety Foundation.
