

Valley Hope

ADDICTION TREATMENT AND RECOVERY

Transforming Lives.
Rebuilding Families.

Hope for Life.

Valley Hope is nationally-renowned as a trusted provider of addiction treatment and recovery support. We provide compassionate, patient-centered treatment for drug and alcohol addictions, supported by evidence-based therapies.

A LEGACY OF RECOVERY

Valley Hope has provided fundamental healing to people and families impacted by substance abuse for more than 50 years. We have helped more than 310,000 people - and counting - find hope in recovery and restore their lives. Our mission is to establish lifelong partnerships with patients and families to help support and sustain recovery.

COMPASSIONATE, PATIENT-CENTERED CARE

Valley Hope's holistic, collaborative treatment approach is centered on the multi-dimensional needs of those suffering from addiction, tailored to patient needs in order to achieve the best outcomes for long-term recovery.

CLINICAL EXCELLENCE

Your Valley Hope treatment experience is powered by a team of compassionate clinical experts. Our treatment team is comprised of master's level, licensed therapists that specialize in addiction treatment and recovery. Physicians and registered nurses provide the necessary medical care to ensure your comfort and safety.

LIFELONG RECOVERY SUPPORT

After the treatment experience, the Valley Hope community provides ongoing support that empowers the recovery journey every step of the way. Our renowned Hope Builder Alumni Program provides ongoing education, recovery events, community engagement, meaningful connections, ongoing encouragement and fellowship opportunities built to sustain recovery.

CONTINUUM OF CARE

REFERRAL PROCESS

Valley Hope is a Trusted Treatment Partner, committed to providing life-changing care to your patients, clients and loved ones. _____

Referring your patient to Valley Hope for substance use disorder treatment is a simple, efficient process. Our collaborative process and highly responsive system guides our referral partners from admissions through the full continuum of care.

VALLEY HOPE PATIENT REFERRAL PROCESS

- // Responsive, clinically-informed Patient Access Team conducts a free level of care assessment to determine the best treatment option.
- // Comprehensive clinical evaluation and efficient intake process conducted on-site at a designated Valley Hope treatment center.
- // Benefits support team works with insurance providers to ensure your patient receives maximum coverage.
- // Valley Hope works with referring professionals to determine any required or preferred communication and/or collaboration including treatment, discharge and aftercare planning, updated medical records or any other needs regarding your patient.
- // The Valley Hope Professional Network works closely with referring partners, providing a dedicated liaison to guide successful communication and collaboration, peer networking events, CEU (continuing education) opportunities, speaking engagements, strong communication protocols and external referrals. Learn more at valleyhope.org/referralnetwork.
