Nebraska Hospital Association Foundation announces health care career scholarship recipients

LINCOLN, NEB. — The Nebraska Hospital Association Research and Educational Foundation (NHAREF) is proud to announce the recipients of the 2018 Graduate Studies Tuition Aid Program and the Undergraduate Health Care Career Scholarship Program.

In an effort to address the ongoing health care professional shortage, the NHAREF is assisting future industry leaders in their efforts to pursue a degree in health care or further their education through two scholarship programs — the Graduate Studies Tuition Aid Program and the Undergraduate Health Care Career Scholarship Program. The scholarship programs can also encourage Nebraskans to remain in the state as they establish their careers in health care.

“The NHAREF is pleased to award scholarships to hospital employees who have selected to focus on a health care career. This year’s awardees represent the commitment to advance their learning to enable them to provide direct patient care or to offer the many support services hospitals utilize,” Nebraska Hospital Association President Laura Redoutey said. “We are honored that so many applied for these scholarships. We wish all of our student employees well as they pursue their educational dreams.”

Four additional scholarships were offered this year due to a generous donation to the Health Care Career Scholarship Program from FocusOne Solutions and Aureus Medical Group. These scholarships assist students

who are working toward a career to improve the health and well-being of Nebraska's communities. Dan Nordstrom, Business Development Executive at FocusOne Solutions, says, "Aureus Medical and FocusOne Solutions are committed to helping NHA members by supporting Nebraska nurses to achieve their educational and career goals at NHA member hospitals."

Nebraska's hospitals are proud to support these outstanding students who will keep our quality of care among the best in the nation.

Recipients of the 2018 Graduate Studies Tuition Aid Program:
