## **Lessons Learned: Reflections on CMS and the Successful Implementation of ICD-10**

Webinar #T3063

### **DATE AND TIME**

August 23, 2016

12:30 - 1:30 p.m. CT

### **OVERVIEW**

On October 1, 2015, the U.S. health care system transitioned the way patient visits are coded from ICD-9 to the next version ICD-10, a system which sets the stage for meaningful improvements in public health. If people know about ICD-10 at all – and chances are they don't – it's probably from press reports about the more colorful diagnostic codes like "other contact with shark" or "burn due to water-skis on fire, subsequent encounter." More seriously, for people in the health care industry, it was being compared to Y2K, a transition with the potential to create chaos in the health care system. For thousands of hospital, physicians and other clinicians around the country, the change to ICD-10 was a big undertaking, requiring time, planning, and a period of adjustment. But on October 1, proper execution and good implementation made all the difference. Attend this webinar to see what have been our success stories, as well as what we see are still challenges in the industry.

### **TARGET AUDIENCE**

CEOs, CFOs, physicians, rural health care providers (RHCs), federally qualified health centers (FQHCs), clinicians, health information management (HIM) coders, utilization management personnel, case management and quality staff.

### **OBJECTIVES**

1. Identify the stumbling blocks.
2. Discuss the changes that can impact documentation improvement.
3. List resources to help meet future challenges of ICD-10.
4. Examine the CMS -AMA agreement for transition policies expiring October 1, 2016.
5. Prepare recruitment and retention plans for coding staff.

### **FACULTY**

**Jean Ann Hartzell-Minzey, RHIA, CPC, CHA**

AHIMA Approved ICD-10 Trainer

CEO & Chairman of the Board Certified ICD-10 Trainer  
Healthcare Education Strategies, Inc.

Jean Ann Hartzell-Minzey has over 35 years of professional experience in the areas of documentation, education, chargemaster review, coding and billing, and compliance. She was a director of several medical record departments for hospitals in Louisiana and Mississippi.
