

CMS Restraint and Seclusion: Navigating the Most Problematic of CMS Standards

Webinar #T2976

DATE AND TIME

August 4, 2015

9:00 a.m. - 10:30 a.m. CT

OVERVIEW

April 1, 2015, CMS issued the latest interpretive guidelines on restraint and seclusion for hospitals. This program will discuss the most problematic standards in the restraint section and can help hospitals meet CMS and The Joint Commission guidelines, and take the mystery out of the restraint and seclusion interpretive guidelines. It will also provide a crosswalk to The Joint Commission standards. It will include such things as what is required for an internal log, as well as reporting requirements for medical records.

TARGET AUDIENCE

CNO, CMO, COO, all nurses with direct patient care, nurse educator, ED nurses, ED physicians, medical staff coordinator, risk manager, patient safety officer, senior leadership, hospital legal counsel, risk manager, performance improvement, The Joint Commission coordinator, nurse managers, quality director, security guards, compliance officer, chief risk officer, accreditation and regulation staff and anyone involved in the restraint or seclusion of patients, including staff that may remove and apply restraints as part of their care such as radiology and ultra sound technologists, transport staff, and others. Persons responsible for writing hospital policies and medical staff bylaws should also attend.

OBJECTIVES

- Define the CMS restraint requirement of what a hospital must document in the internal log if a patient dies within 24 hours of having two soft wrist restraints on.
- Discuss CMS requirements which state that all physicians and others who order restraints must be educated on the hospital policy.

- Describe CMS restraint education requirements for staff.
- Discuss CMS specifics that need to be documented in the medical record for the one hour face to face evaluation on patients who are violent and or self-destructive.

FACULTY

Sue Dill Calloway
