Program Overview

Perinatal Care in Nebraska – Training Resources and Quality Programming is focused on exploring resources to support and train healthcare professionals on safe care for mothers and babies across the state. As rural hospitals make strategic decisions regarding OB services, it is imperative to work cohesively across the state to ensure effective, efficient, high-quality healthcare. During this 90-minute web-based discussion, speakers will discuss ideas for delivery toolkits, Perinatal training opportunities and classes, as well as statewide perinatal quality projects.

Agenda
