

# EMERGENCY PREPAREDNESS

Stacey Aguilar CHEP, CHOP

Emergency Management Director

Community Hospital

# DISCLAIMER

This presentation may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. Please review the specific statutes, regulations, and other interpretive materials for a full and accurate statement of their contents.

# AGENDA

- Understanding the CMS Guidelines
- Assessment and Implementation
- Steps of Emergency Management
- Resources

# **CMS EMERGENCY PREPAREDNESS RULE**

- 1<sup>st</sup> published in the Federal Register for comment in December 2013
- Increases patient safety during emergencies
- Establishes consistent emergency preparedness requirements across provider and supplier types
- Establishes a more coordinated response to natural and man-made disasters

# GOALS FOR THE RULE

Address  
systemic  
gaps

Establish  
consistency

Encourage  
coordination

# Definition of a disaster

**A disaster** is a serious disruption occurring over a short (mass casualty incident) or long period of time (pandemic) that causes widespread human, material, economic or environmental loss which exceeds the ability of the affected community or society to cope using its own resources.

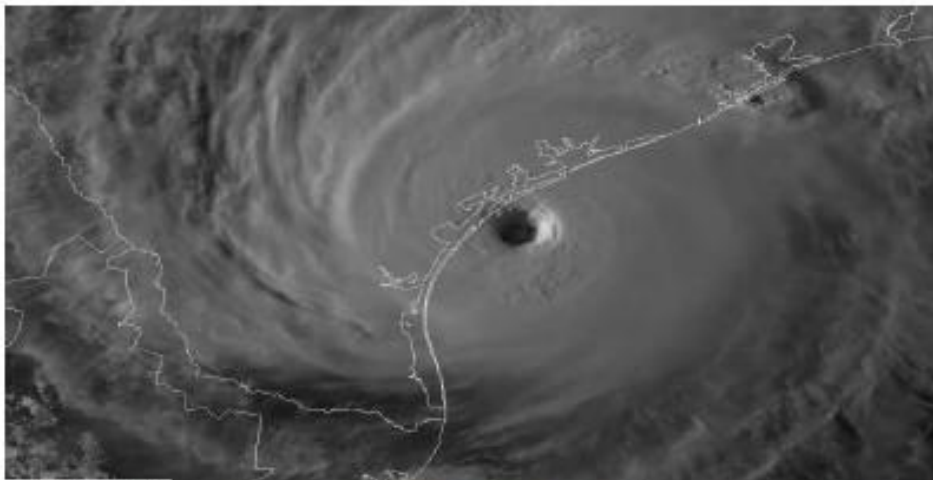

**WHAT KEEPS YOU AWAKE AT NIGHT?**

**WORK RELATED THOUGHTS, KEEP ME AWAKE...**

## **Internal Incidents**

- Fire
- Cyber-security
- Infectious Diseases
- Missing Person
- Active Shooter

## **External Incidents**

- ▶ Mass Causality
- ▶ HazMat
- ▶ Tornado
- ▶ Winter Storms
- ▶ Power Outage

# **TYPES OF DISASTER EVENTS**

**Purpose:** To establish national emergency preparedness requirements, consistent across provider and supplier types.

- Outlines emergency preparedness Conditions of Participation (CoPs) & Conditions for Coverage (CfCs)
  - CoPs and CfCs are health and safety standards all participating providers must meet to receive certificate of compliance
- Applies to 17 provider and supplier types
  - Different emergency preparedness regulations for each provider type

## FEDERAL REGISTER

Vol. 81

Friday,

No. 180

September 16, 2016

Part II

Department of Health and Human Services

Centers for Medicare & Medicaid Services

42 CFR Parts 403, 416, 418, et al.

Medicare and Medicaid Programs; Emergency Preparedness Requirements for Medicare and Medicaid Participating Providers and Suppliers; Final Rule

**Bottom line:** Providers and Suppliers that wish to participate in Medicare and Medicaid – i.e. the nation's largest insurer – must demonstrate they meet new emergency preparedness requirements in rule.

# Core Elements of the CMS Emergency Preparedness Rule include:

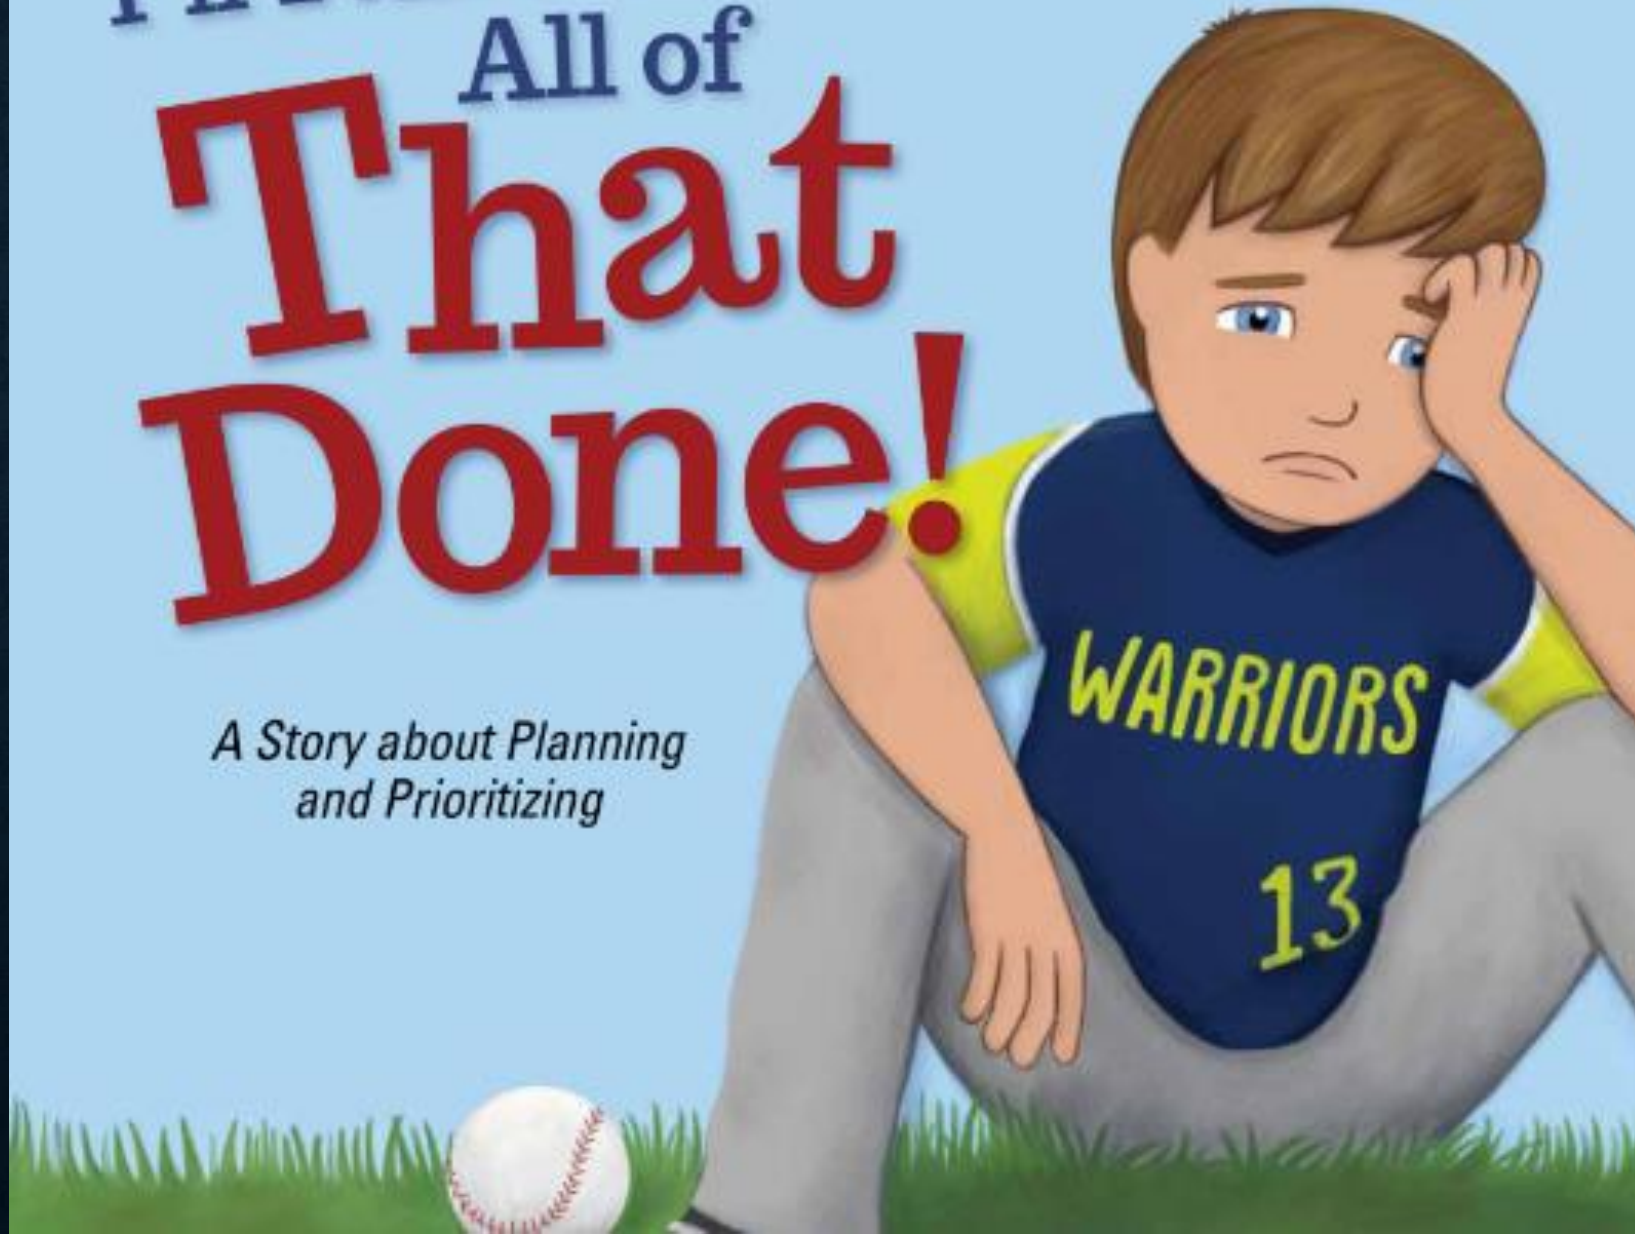

# Who is Affected?

Inpatient	Outpatient
Critical Access Hospitals (CAHs)	Ambulatory Surgical Centers (ASCs)
Hospices	Clinics, Rehabilitation Agencies, and Public Health Agencies as Providers of Outpatient Physical Therapy and Speech-Language Pathology Services
Hospitals	Community Mental Health Centers (CMHCs)
Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID)	Comprehensive Outpatient Rehabilitation Facilities (CORFs)
Long Term Care (LTC)	End-Stage Renal Disease (ESRD) Facilities
Psychiatric Residential Treatment Facilities (PRTFs)	Home Health Agencies (HHAs)
Religious Nonmedical Health Care Institutions (RNHCIs)	Hospices
Transplant Centers	Organ Procurement Organizations (OPOs)
	Programs of All Inclusive Care for the Elderly (PACE)
	Rural Health Clinics (RHCs) and Federally Qualified Health Centers (FQHCs)

and Prioritizing*

# **HOSPITAL PREPAREDNESS PROGRAM**

The Hospital Preparedness Program (HPP) enables the health care system to save lives during emergencies that exceed day-to-day capacity of the health and emergency response systems.

# Training and Testing Requirements

# OTHER KEY ELEMENTS

## Temperature Controls and Emergency and Standby Power

- Higher level of requirements for hospitals, critical access hospitals, and long-term care facilities.
- Locate generators in accordance with National Fire Protection Association (NFPA) guidelines.
- Conduct generator testing, inspection, and maintenance as required by NFPA.
- Maintain sufficient fuel to sustain power during an emergency.

# WHERE ARE WE NOW?

- Interpretive Guidelines and State Operations Manual has been developed and published by CMS
- In September, 2017, the surveyor training for emergency preparedness requirements was launched. Available at <https://surveyortraining.cms.hhs.gov/>
- Training through the Integrated Surveyor Training website is available for providers and suppliers
- As of November 15, 2017, in conjunction with their regularly scheduled survey, these condition of participation will now be assessed.

## Driving Healthcare Quality

Welcome to the Quality, Safety & Education Portal (QSEP)

Logout

[Select here](#) for instructions on how to access Targeted COVID-19 Training for Nursing Homes

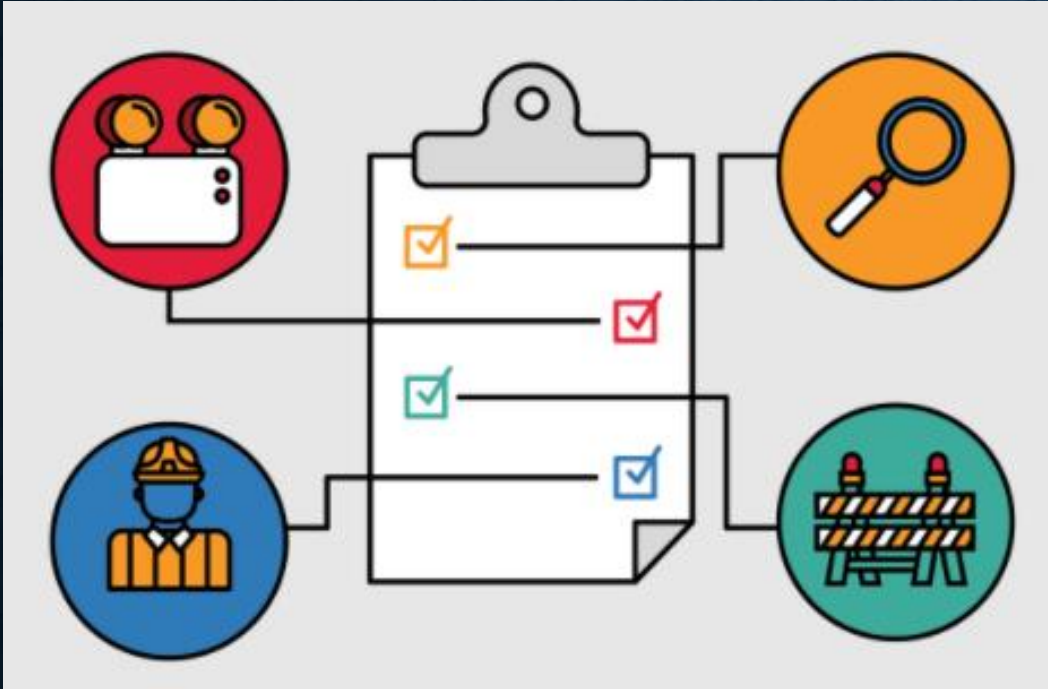

**The Quality, Safety & Education Portal (QSEP) provides the full curriculum of surveyor training and guidance on health care facility regulations.**

QSEP is an online platform that empowers learners to lead and manage their own learning in order to master the content. All training is available on-demand on a top-notch self-service portal. 24/7 access means you have the freedom to learn what you want, where you want, when you want.

# COMPLIANCE

- Facilities are expected to be in compliance with these requirements
- Surveys for Emergency Preparedness will be in conjunction with the regular survey cycle
- In the event facilities are non-compliant, the same general enforcement procedures will occur as is currently in place for any other conditions or requirements cited for non-compliance

# RECOVERY

# WHY ALL THE HYPE ABOUT EMERGENCY PREPAREDNESS
