OPTIONAL ADD-ON

9:00 A.M. - 4:30 P.M.

BEYOND BUY-IN: BUILDING OWNERSHIP FOR CHANGE WITH TEAMSTEPS

Chris DeRienzo MD, Chief Physician Executive | American Hospital Association

Rhonda Fischer RN, Team Training Clinical Program Lead | American Hospital Association

In today's value-driven health care landscape, aligning clinical quality with organizational culture and financial performance is not optional—it's mission-critical. This immersive, hands-on workshop brings together health care executives, quality leaders and clinical leadership to tackle one of the most persistent challenges in health care: how to implement and sustain meaningful change.

Using the proven tools and change management methodology of TeamSTEPS, participants will explore the powerful intersection between quality improvement, cost containment and organizational culture. Through engaging simulations, leadership frameworks and team-based activities, attendees will gain actionable strategies to overcome resistance, build lasting ownership and measure what matters.

Whether you're driving clinical transformation, leading QAPI initiatives or managing change across service lines, this session offers a blueprint for implementing structured, scalable change management—grounded in communication, engagement and measurable results.

OBJECTIVES:

- Explore the connection between quality improvement and cost reduction within the population health environment.
- Discover how TeamSTEPS tools and the TeamSTEPS methodology contribute to meaningful change management.
- Discuss the importance of measuring success and identify measures that can be used to assess the impact of a change management program.
- Discuss common challenges to organizational change management and strategies to overcome them.
- Discuss key principles of implementing change and develop a tactical and strategic change management plan for a current challenge.
